MACORK SOLUTIONS
A BRANDING & MARKETING SOLUTIONS COMPANY

the horn has sounded...

As the seasons change from fall to winter; from winter to spring; spring to summer and back to fall, the strategies, schemes and plays change in the athletic programs of schools across the country. Coaches and their staff are constantly brainstorming new ways to gain an advantage over their upcoming opponent; closely observing every detail and technique to fine-tune each player's optimum potential of excellence. The excitement, energy and adrenaline radiates from the field, court and diamond. Scholastic sports have become a significant part of the culture of our society uniting towns, offices and families under the common love for the school colors.

With so much interest drawn to scholastic athletics, the potential revenue to be earned has become a vital part of the strategic plan for each individual sport. The team has expanded beyond the field. Now, insert

the entire Athletic Department – from the Athletic Director, the Marketing Director to the students passing out T-shirts and flyers on campus and in the community. The business of scholastic athletics supports the weight of the teams by assuring the funds and community interest is present and maximized.

When you think about going to see your favorite team play, you instantly envision a certain atmosphere and environment. Though each of us have some differences in our game-time experiences, most think of a stadium, coliseum or gymnasium filled with people cheering in support of their team. We never imagine going to an empty stadium. The camaraderie and fellowship is a part of the whole experience! Many long-term friendships and business partnerships have been established while enjoying a sporting event.

The horn just sounded...MACORK SOLUTIONS has just entered the game...

As a role player, our goal is to help facilitate the maximum exposure for the program and each team. On the front end, we work closely with the Athletic and Marketing Directors to create an excitement in the community about the upcoming season. From theme development, capital campaign, photo shoots and a list of design projects, our team (inclusive of the school's entire Athletic Department) begins workouts long before the first kick-off. Our season, however, does not end with the opening tip-off. Throughout the season, meetings and phone conferences continue to make sure the momentum is not lost. New campaigns and events are constantly being coordinated throughout the entire season. Our goal is to make the game a community event you don't want to miss.

The success of the marketing plan translates to the success of the entire program. The advantage of the home team sits in the stands. Those cheering fans, friends and family can be the difference between a win and a loss on the field and in the bottom line of your revenue report.

Our team brings relevant and innovative solutions to an ever-changing industry. We anxiously anticipate our chance to make a difference in the game. Let's play ball.

your sports marketing solution

Working with a creative agency should be the most rewarding and enjoyable part of your day. As graphic designers, brand consultants and project managers, we work hard to make that a reality. Our work reflects our passion for sports and creativity, along with our excitement for ensuring that clients experience that "wow" moment!

Our objective is to research and utilize a variety of media and styles to find innovative and professional solutions to your marketing and promotional needs, and most importantly improve your team's visual presence in a world that is driven by how and what we see.

We oversee a variety of projects ranging from game day programs and posters, to schedule cards, logo design, directories, brochures and catalogs.

posters: make an impact

All of the posters that we've designed have one thing in common – strong visual impact! It usually starts with the photos. We can use existing action photos or we can use professional studio photography... it just depends on what you have available and the look you want. If you have access to a studio photographer but don't know exactly how to arrange the shoot, then we can art direct with the photographer remotely to assure that your photos match the overall vision.

Quite often we get the "just make it look good" request. Maybe you've decided that all you need are some action shots of your players, the season schedule and some sponsor logos but don't have a particular theme to design around. That's ok. We'll come up with a unique design that's customized specifically for your team. We'll even sort through your action photos and pick the ones we think will work best for the design.

visual consistency is key

One of the most overlooked aspects of a great marketing campaign is consistency. Individual pieces not only need the same relevant information but they also need the same visual message. Even if each piece is slightly different from the others in the campaign, fans are left with a confusing message. Letting us handle your creative

“Individual pieces not only need the same relevant information but they also need the same visual message.”

helps avoid that problem.

We can develop the artistic component of the campaign and then re-purpose the artwork for the various media such as print or web advertising, brochures, signage or promotional giveaways. It's also more cost-effective since we're not creating custom designs for each piece...simply implementing an existing design into a new medium.
